

Welcome to

Hotel  
**König  
von  
Ungarn**

Tradition since 1746

*Vienna's oldest hotel.* Traditional Austrian elegance combined with hospitality. The original hotel building, mentioned for the first time in 1746 in the *Allgemeines Intelligenzblatt*, has remained intact and is a listed building. This and much more mark our hotel as an extremely stylish superior category downtown hotel with an unmistakable atmosphere in a top location.

*You will* feel at the König von Ungarn like a guest in a private patrician house.

Innovative from the beginning

**The most recent innovation** is a new building that contrasts the hotel's historical atmosphere with a modern architectural environment.

**Two buildings of such differing character under a single roof** – a challenge and an opportunity at the same time. The result is a modern and distinctive atmosphere based on the hotel's existing quality features and developing them to offer additional possibilities to complement the traditional hotel.

Tradition since 1746

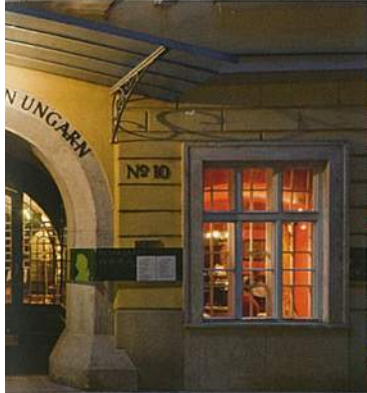

*A warm welcome to the heart of Vienna.*

Our hotel is just behind St. Stephen's Cathedral. You will be staying in the heart of the city, close to most of the main sights and only 50 metres from a public underground car park.

*Charming, elegant, familiar and comfortable.*

You will sense the unmistakable atmosphere of our hotel as you enter the lobby. Our staff are committed to ensuring that our guests feel at home in the König von Ungarn at all times of the day and night.

*Mozart wrote to his father:* "I assure you that this is a magnificent place ...". The "König von Ungarn" restaurant has existed since 1746 and even Mozart would have appreciated its flair and cuisine.

*Under the spire of St. Stephen's Cathedral and right next to Stephansplatz.* Many Hungarian noblemen and magnates who attached importance to comfort and convenience lived here during the emperor's day. This tradition continues today and now includes modern technology such as free WLAN and Internet access, air conditioning, safe, mini-bar and flat-screen TV.

Innovative from the beginning

**A historical hotel and architectural work of art.** The historical “König von Ungarn” has existed in this form since the sixteenth century. The modern annex is situated in a Neo-Gothic building erected 110 years ago.

**Living space to feel at home.** The innovative new building has air conditioning, free WLAN, flat-screen TV, mini-bar, safe, attractive room layout, spacious double rooms and deluxe bathroom with bathtub, separate shower and WC, and an additional WC.

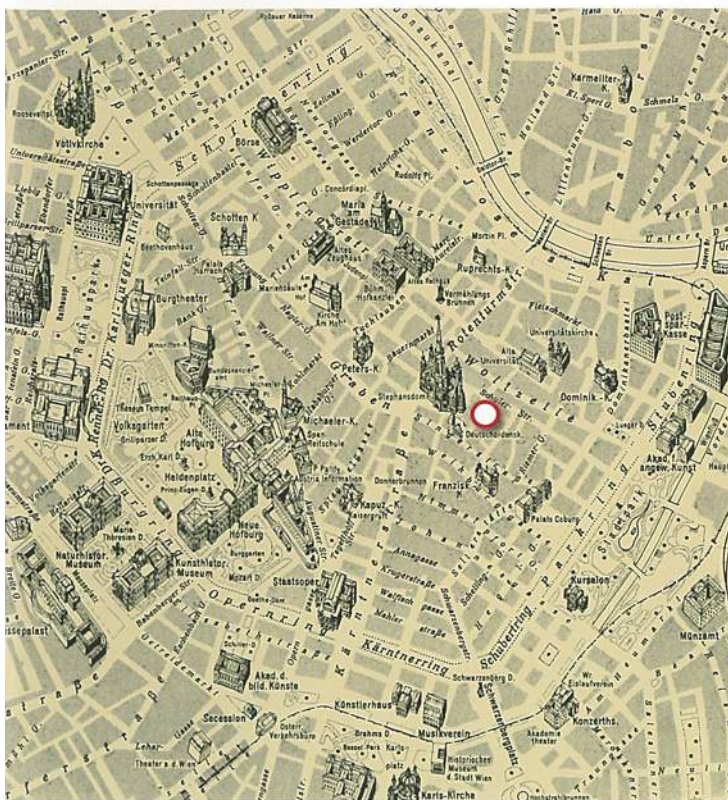

**Complete harmony – in colour, space and light.** Nothing of the hotel's unique atmosphere is lost in the transition from the historical to the modern building. Every floor has a different colour scheme and furniture design, and the generously appointed penthouse opens up to the sky over Vienna.

**The new building – an innovative contrast.** The new building offers all conceivable comforts specially for guests seeking to combine our historical atmosphere with modern architecture.
